

A proactive dialogue about your textile demand is necessary

Due to temporary capacity challenges on the sea freight market, we have appended temporary clauses to our general delivery terms. These will take effect immediately and will be valid until the end of January 2022. Therefore, we would like to initiate a proactive dialogue about your textile demand

Recent times have been marked by major challenges and disruptions in deliveries and capacities on the sea freight market with increasing freight rates as a consequence. We do not see any signs that things are improving in the short term - in fact, we are looking with concern into the autumn- and Christmas trade seasons, where we expect further pressure on freight capacities and delivery conditions.

Unfortunately, this is a situation which is beyond our control. A situation where ordinary and planned sailing routes change from day to day. For this reason, we will append two clauses to our general delivery terms ([see § 8 in our General Terms and Conditions of Sale and Delivery](#)):

- » The delivery date on our order confirmations is only of an indicative nature, which is why the general delivery condition of +/- 6 working days, as mentioned in our General Terms and Conditions of Sale and Delivery (§ 8 "Delivery time"), is temporarily suspended.
- » Beirholms Væverier A/S cannot be held responsible nor accountable for claims and consequences related to delayed deliveries that go beyond our General Terms and Conditions of Sale and Delivery of +/- 6 working days.

The appended clauses have a temporary validity until end of January 2022.

In continuation of previous communication regarding the situation on the sea freight market, we have already taken our precautions to meet the challenges. We are planning and doing what we can to deliver within the delivery dates stated in our order confirmations and will, if possible, seek alternative delivery solutions which, given the size and value of the order, are not considered unreasonably burdensome for Beirholms Væverier A/S.

We fully understand that any delays may have a negative impact on your business and would therefore urge you to collaborate with us to jointly seek to minimize the risk of delays by proactively organizing and placing orders earlier than usual.

With the wish of a good summer.

Beirholms Væverier A/S
